Master Lock keeps your employees safe

Safety at work is a primary concern for all professionals.

Each year, thousands of work accidents occur while repairing or servicing industrial equipment, the unexpected startup or release of stored energy can cause accidental injuries or even death. Most of those tragedies are due to energy sources that have not been isolated.

To prevent such risks, Master Lock has developed a full range of padlocks and accessories to help facilities to meet or surpass local standards LOTO requirements.

Discover Master Lock latest solutions:

- Confined space covers to protect against unauthorized entry
- Pipeline maintenance solution to prevent removal of blind flange
- Universal mini universal circuit breaker
- Bluetooth Smart™ padlocks allow remote access control

About Master Lock®

Master Lock was founded in 1921 and is the world's largest manufacturer of padlocks. The company caters for a wide variety of markets and has been responsible for numerous innovations, including the invention of the laminated steel padlock. Information on the comprehensive Master Lock range of specialist LOTO equipment is also available at <http://www.materlock.eu>
